

# specialty films

shrink wrap products ▶▶▶▶

In addition to the standard 6-12 mil shrink wrap, Dr. Shrink also offers a variety of specialty films. Various films include flame retardant, vehicle wrap and pallet bags. For anti-corrosion wrap, see Section 02 of this catalog.

## FLAME RETARDANT WRAPS

MADE IN AMERICA  
QUALITY ASSURED

### Flame Retardant Shrink Wrap

(MULTIPLE PART NUMBERS)

Flame Retardant shrink wrap contains specialized additives that will extinguish the wrap within 4 seconds of having the source of ignition removed. An ideal shrink wrap for scaffolding, shipyards, factories, containments, etc. where people work under the material. All of our Flame Retardant Shrink Wrap meets or exceeds NFPA 701 specification. Available in white opaque only in 7, 9, or 12-mil thicknesses. Contains UV inhibitors for long term usage.

QUALITY ASSURED

### Dura Skrim (non-shrink)

(MULTIPLE PART NUMBERS)

Dura Skrim® 2FR consists of two sheets of high-strength flame retardant virgin film laminated together with a third layer of molten polyethylene. A heavy-duty scrim reinforcement placed between these plies greatly enhances tear resistance and increases service life. Dura Skrim® meets or exceeds NFPA 701 requirements. Commonly used in applications that require a flame retardant, high puncture and high tear-strength material. Dura Skrim also available in clear, non-flame retardant, 20' x100', 6-mil.

## VEHICLE WRAP

 **AUTO SALVAGE**

### Dr. Shrink's Vehicle Wrap

(MULTIPLE PART NUMBERS)

Dr. Shrink, Inc. offers premium 3 and 5-mil Vehicle Wrap to protect damaged automobiles against weather until they are auctioned or repaired. Our Vehicle Wrap is self-adhesive and applies easily around broken windows and other areas exposed to damage. It is also UV protected to provide durable, long-lasting protection. Vehicle Wrap is ideal for use at auto salvage yards, accident sites, and for preparing vehicles for safe transportation.
