

DIY 200ml Kit

Model #RPS200

Fouling of running gear is a constant headache for boat owners, requiring expensive and time-consuming grinding and sanding to remove marine growth at every haul-out. Take control with PropSpeed – the cost-effective way to keep your marine vessel performing at its peak. PropSpeed is the most inexpensive upgrade a boat owner can implement to increase speed and performance.

Thousands of boat owners around the world have reaped the benefits of PropSpeed:

- Reduces drag and fuel consumption
- Extends the life of sacrificial anodes
- Protects all underwater metals from erosion and stray currents
- Lasts longer than standard antifouling

In areas like the Great Lakes, Pacific Northwest and New England, the product, when correctly applied, has lasted up to four years!

The 200ml DIY kit includes:

- 1 x 96ml Etching Primer Base
- 1 x 80ml Clear Coat
- 1 x 24ml Etching Primer Hardener
- 1 x Propclean wipes
- 1 x Propprep wipes
- 1 x stirring sticks
